EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney Truong on 6/11/2007.

The application has been amended as follows:

Claim 18 was replaced by:

A method to promote wound healing in a subject in need thereof, comprising: providing an agent capable of inducing a leptin or leptin receptor-mediated angiogenic response; and administering to a subject in need of wound healing, an effective amount of the agent to promote wound healing, wherein the agent is leptin.

Claims 29-30 are cancelled.

The following is an examiner's statement of reasons for allowance: The prior art Snodgrass (US Patent No. 6,355,237) does not teach or fairly suggest treating wound healing in a subject in need thereof comprising administering an agent that induces leptin or leptin receptor in said subject. Therefore, the previous rejection of record is withdrawn in view of Applicants' amendments of claim 18.

Art Unit: 1646

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
